September is National Preparedness Month

September is National Preparedness Month, and Benton County Emergency Services (BCES) and the Benton Franklin Chapter of the American Red Cross are teaming up to help local citizens become better prepared for disasters that could strike our area. The five-year anniversary of the 9/11 attacks and last year's devastation of our Gulf Coast by Hurricane Katrina should serve as stark reminders of the need for personal and family preparedness.

"It is essential that families are prepared for disasters that could affect our area, including fires, earthquakes, floods, windstorms, and potential hazardous material spills," said Bob Spencer, manager of Benton County Emergency Management. "Families should have an emergency supply kit and a family emergency plan, along with being informed about the different threats that may affect them."

BCES and/or the Red Cross will be involved in a number of September events to help residents become better prepared, including:

- Kennewick General Hospital's Kid's Health & Swellness Event at Columbia Center Mall on Saturday, September 9;
- Benton City Daze in Benton City on Saturday, September 9;
- An open house for area residents at the offices of Benton County Emergency Services in Richland on Saturday, September 16, and;
- City Fair sponsored by the city of Richland on Saturday, September 23.

"We are using these events to reach out to area residents," said Spencer. "However, both BCES and the Red Cross are always available to provide information to individuals, families, and businesses on how to be better prepared."

Information on emergency preparedness is available on the Internet at www.bces.wa.gov, www.bfredcross.org, and www.ready.gov. Residents can also call BCES at (509) 628-2600 and the American Red Cross at (509) 783-6195 for more information.
